		25X1

1. On 26 and 27 July 1954, formations of Il-10s were repeatedly observed in the Beelitz air space. The formations usually consisted of 10 aircraft which flew at an altitude of about 500 meters from northwest toward Sperenberg from where they returned after about 10 minutes. Between 1 and 14 August, formations of usually 12 Il-10s were observed flying in the same way. About 1030 on 6 August, it was observed that the aircraft of a formation 25X1

2. The following air activity and aircraft were observed at the field between 10 and 19 August:
10 August. Throughout the day Il-10s practiced flying. Repeatedly formations of 2 to 4 aircraft were seen aloft. Part of these formations landed at the Brandenburg-airist airfield from where they took off again for local flights over ariest. At 1500, only 6 Il-10s were observed at the Industriehafen airfield. Between 1900 and 1930, the aircraft which had practiced at ariest landed at the Industriehafen airfield.
12 August. Between 1900 and 2130, 8 Il-10s were seen aloft. Shortly before 1800, 30 Il-10s were counted at the field.
15 August. At 1000, 30 Il-10s were parked at the field.
16 August. Between 1000 and 1345, there was individual and formation flying. The weather was overcast with intermittent rain showers.
19 August. During the morning, three formations of 10 Il-10s took off toward the southeast. After 40 to 50 minutes, the formations returned and the aircraft landed individually. During the afternoon, individual aircraft practiced low-level attacks. 1
3. Until 19 August, there was no change in the occupation by an air force unit of the Infanterie kaserne at Brandenburg. About 2210 on 18 August, 75 percent of the windows of building No 1 were lighted. Jeep entered the barracks installation. 25X1
4. Tank truck and jeep were identified at the field. 25X1

1. Comment. Air activity by the ground attack regiment stationed at Brandenburg-Industriehafen airfield was normal. Many of the aircraft probably flew to the Mommersdorf bombing range. Firing at ground targets at the Brandenburg-Brieset airfield was presumably practiced by the aircraft observed there.

25X1

2. Comment. The air force unit from Doeberitz which at present is quartered in the Infanterie Kaserne at Brandenburg could not yet be identified. Motor vehicle were previously observed in Doeberitz.
